

It is very important that K-Love not be taken over by Low Power FM stations. Everyday K-Love reaches thousands of listeners in my area who might need just the right words to get them through the day. K-Love is the only station that is capable of bringing a word of hope into my community. If K-Love were to be displaced by an LPFM broadcaster, it would be shared with other programming that might not be an effective tool in bringing the message that so many need. K-Love needs to have soul ownership of its own station.

Please let K-Love stay on its own FM translator.

Thank you,
Darlene DeHart
